# ITTY-BITTY SPEAKER

WITH BLUETOOTH®

USER MANUAL

① On/off, play/pause, answer calls: Long press and hold the button for 6 seconds to power on/off. Short press to pause when playing music. Short press to answer/reject incoming calls.

② Bluetooth indicator light: Turn the power on. Once the speaker is on, the green LED will blink quickly. If you don't touch the button or connect within 21 seconds, the speaker will sleep. Once the speaker is connected to your phone, the green LED light will remain on.

③ Charging indicator light: The red indicator light will remain on while charging. Once fully charged, the light will turn off.

④ MIC hole: When talking in front of the speaker, be careful not to jam as this will affect the call.

⑤ Speaker

⑥ Sling hole

⑦ Micro USB Port: For charging through the Micro USB cable.

Functions:

1. Power on/off: long press button 1 to power on/off, you will hear a voice prompt at the same time.

2. Bluetooth connection: Long press the button to turn on the Speaker. The green LED light will blink quickly, and you will hear a voice prompt, "Hi, I'm ready, waiting for a connection." Open the Bluetooth function of your phone and select "ITTY BITTY" from the Bluetooth search list. It will connect without the password. You will then hear another voice prompt, "Bluetooth connected," and the green LED light will remain on.

3. Bluetooth music and other media play: After the Bluetooth is connected, short press button 1 and the music on your smartphone or other Bluetooth device will play automatically. Short press button 1 again, and the music will pause.

4. Bluetooth calls: Once the phone is connected, a voice will broadcast the telephone number of an incoming call. Short press button 1 to receive the call, then short press again to disconnect.

5. Bluetooth anti-lost: Once connected, if you move your device too far away or disconnect abnormally, the speaker will issue an alarm sound. Once you are back within the normal range, the alarm will stop.

6. Bluetooth camera shutter function: Once connected, you can take photos while in the phone camera mode by double pressing the play button on the Bluetooth speaker. Using this function eliminates blurry photos caused by shaking when operating the button on a smart phone.

Notes:

1. Use your computer's USB or DC5V power adapter to charge by matching the Micro USB interface.

2. Contains a built-in battery. Please do not dispose in fire.

3. Product performance will be affected by high temperature, humidity or other inclement environments.

4. Please do not jam the MIC hole or speaker mesh as it will affect the usage of the product.

Resolution	>55dB
Speaker	23mm 4Ω 2W
Dimensions	26. 8*26. 8*28. 5mm

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:(1)This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

FCC RF Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment End users must follow the specific operating instructions for satisfying RF exposure compliance. This transmitter must not be collocated or operating in conjunction with any other antenna or transmitter.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
